

# ISAN 2017

Nagoya, Japan

August 30 – September 2, 2017

*Let's Enjoy the World of the Autonomic Nervous System in the 21<sup>st</sup> Century - From the East to the West*

**Abstract submission closes 30 April 2017**

Meeting website: <http://www.isan2017.org/>

Dear Colleagues,

We are pleased to announce the call for abstracts for ISAN2017, a meeting of The International Society for Autonomic Neuroscience held in conjunction with the Japanese Society for Neurovegetative Research (JNSR).

ISAN2017 will bring together the best scientists and clinicians from around the world to present the latest findings in autonomic neuroscience.

Some abstracts may be selected for oral presentation at the meeting. All other abstracts will be presented in poster format.

Abstracts will be submitted via the E-mail: [isan2017abstract@sunpla-mcv.com](mailto:isan2017abstract@sunpla-mcv.com)

## Abstract format

Abstracts must be submitted in English and in .doc or .docx format.

Please use Arial font with text size of 11 points.

Abstracts must consist of text only and be left justified.

The title must be in sentence format, **in bold text**.

Authors' names must be indicated with initials followed by surname (family name).

Please underline the name of the presenting author.

Indicate affiliations with superscripts a,b,c, etc and should list department, institution and country.

Please follow affiliations with a line space.

The text must contain a maximum of 250 words. Please limit the use of abbreviations.

The text must contain a result.

Please organise the text in the order of Background, Aim, Methods, Results and Conclusions although it is not necessary to use those headings.

Use limited references.

Multiple abstract submissions are permitted.

It will be assumed that if an abstract is submitted that each author listed has agreed with the content of the submitted abstract and has given permission to be listed as an author.

Young investigators (PhD students, post-doctorates and clinical research fellows) are encouraged to **also** submit their abstracts for an ISAN travel award; see <http://autonomicneuroscience.info/ISAN/Travel2017.html> for details.

Javier Stern

Chair of the International Programme Committee (on behalf of the IPC and LOC)
